Rhythm Band Instruments Means Music Education

Rhythm Band Instruments Means Music Education

Since 1961, RBI has been supporting music teachers in schools, child care centers, churches, and at home. In 2016 RBI acquired the Toca® brand of hand percussion. Used by professionals around the world, the influence and guidance provided by these artists gives us a deeper perspective on not only the importance of music education, but the importance of using good quality instruments with your young musicians. Latin and Afro-Cuban artists from around the world play Toca. In 2018 we introduced Toca to our elementary catalog and in 2020 we bring you even more items that are perfect for young percussionists of any age.

In 2019 we welcomed world renown percussionist Neil Grover to the RBI family through our acquisition of Grover Pro Percussion®. GPP hand percussion is used by top percussionists in concert halls and the finest conservatories around the world. Neil is a Boston-based percussionist and member of the world famous Boston Pops orchestra. He brings a deep knowledge and understanding of percussion and education to RBI, having performed with the world's best orchestras and taught privately and collegiately for many years. It is our full intent to "tap into" Neil's world and bring you new and improved product through his collaboration with RBI.

While we stretch and grow as a company, we are always conscious of our roots. Here at RBI we refer to the heart of our product offering, our elementary music products, as our Legacy products. These products remain at the core of what we do and you will see new and better Legacy products throughout the following pages. In the end, our true legacy is the same as yours: the countless children who have benefited from time spent in music. We are grateful for the work you do and glad to support it by continuing to provide quality instruments at affordable prices.

FAQ

What's the difference between one, two and three-piece recorders?

One piece recorders are best for beginning players and classroom settings. Why? Because younger players might have a tendency to turn the bodies (the joints) and make changes to the tuning. Older, more accomplished players and their teachers will appreciate the 2 and 3 piece recorders for playing in ensembles because of the ability to change tuning and gain more precise intonation.

"The pBuzz! Finally, a way to help my elementary students experience the brass family in a hands-on way. Most elementary music teachers have examples of the percussion, woodwind, and string families in their classrooms in forms that allow the students to actually play and learn. But brass instruments are rarely part of the elementary classroom. The pBuzz helps solve that problem!"

Grades 5-6. **BT5B \$6.50**

The Tubular™ Series by Ellen Foncannon

Each book in this series contains a variety of songs in full Boomwhackers Musical Tube scores with melody, reproducible "EZ" chordal sheets, lyrics pages and an instrumental CD. This makes it possible for players of different ability levels to perform together.

A Tubular™ Christmas A playful new twist to familiar holiday songs. Each piece comes complete with its own reproducible lyrics sheet, some with optional multi-part arrangements. Grades K-4. **EFCH \$14.95**

Tubular™ Camp Songs Enhance the camping experience by promoting team-building, physical activity and grooving to the beat. This book makes it easy to bring musical games and rhythm to camp. All ages. **EFCM \$6.50**

Tubular™ Classics Put classical themes of the great composers into the hands of every student. Includes Ode to Joy, William Tell Overture, The Can-Can, La Donna Mobile, New World Symphony and 11 more! Also has "Did You Know?" composer facts for a whacky view of music history. All grades. **EFCL \$10.95**

Tubular™ Patriotic Songs Go red, white and blue! (Okay, you'll need more colors than that!) Includes patriotic songs America, Stars & Stripes Forever, Grand Old Flag, 1812 Overture and 8 more! Three settings of each song: Melody Plus, EZ Harmony, and Lyrics. All grades. **EFPA \$10.95**

Tubular™ Spirituals Breathe new life into these wonderful old spirituals with Boomwhackers Tubes! With titles like Kum Ba Yah, Peace Like a River and Swing Low, Sweet Chariot, these pieces are suitable for both school and church. Includes historical notes that help incorporate these selections into Black History Month. All grades. **EFSP \$6.50**

Bible Boomers™ by Ellen Foncannon

Incorporates the sound and action of the tubes to express the stories of traditional and original scripturally based songs. Actions and programs suggestions included make any performance a colorful and immediate hit. A special feature of this volume is the tear-out color cards (based on our Chroma-Notes™ System) in the center of the book. Ask everyone to play only when you show their color. CD included. Ages 5-12. **EBB1 \$10.95**

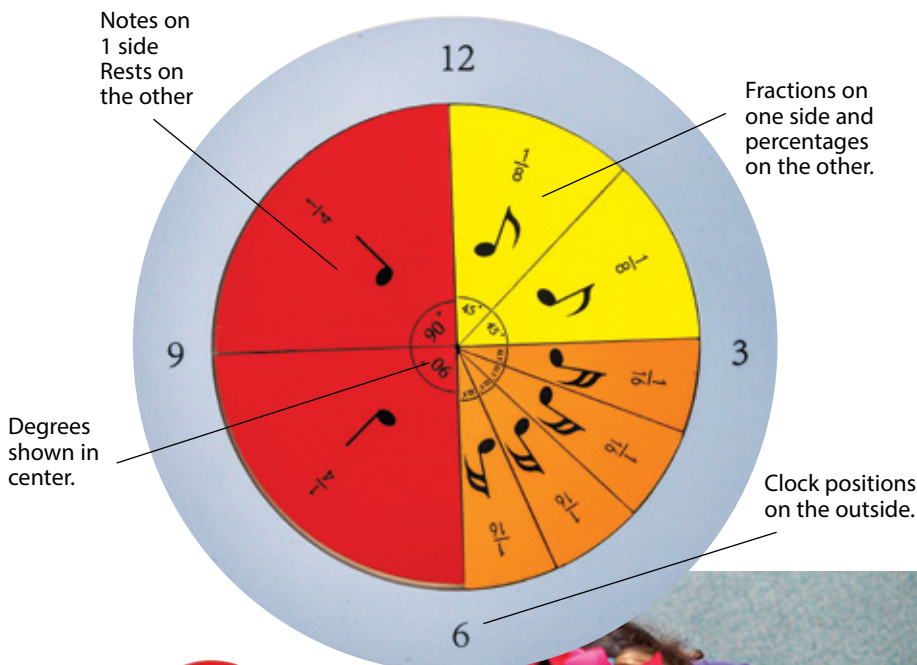

Great learning tool for arts integration into the classroom!

Rhythm Clock

As a STEAM music teacher, I am constantly searching for ideas to connect my classroom to the outside world. The Rhythm Clock has unlimited possibilities. By using the DVD, the kids are able to learn dictation while connecting the note values to both math and science. Without the DVD, rhythmic composition is a breeze. The circular shape helps my students understand that only 4 beats can fit into a 4/4 measure.

-Juli Salzman, Northside Elementary, Angleton ISD

Front

Back

The Rhythm Clock is both a music and math manipulative that provides a great STEAM to STEAM bridge.

FROM THE GAMES METHOD, WE BRING YOU THE RHYTHM CLOCK™

This cross-curricular learning tool came out of The STREAM-liners program, run by an organization called The Artist Outreach. Founded by Joseph Vincelli, they integrate music with other subjects, such as vocabulary and geometry, in order to reach learners of all types. The clock comes with a board with the 12, 3, 6 and 9 delineated and comes with manipulatives that allow learning in a number of different areas. All pieces have the note on one side and the corresponding rest on the other side and feature the Note Knacks® color system. You receive: 1 whole note/rest, 2 half note/rests, 4 quarter note/rests, 8 eighth notes/rest, and 16 sixteenth notes/rest.

- The clock also shows the 4 directions with north pointing on the "12" position on the clock and features fractions on the note side with corresponding decimals on the rest side.
- Each piece features the percentage of the circumference of the board.
- The back of the board has a table of shapes, fractions, decimals, notes, rests, degrees, percentage, and money
- Includes a DVD that plays all of the sample rhythms so your students can experience the sounds as well!

Note Knacks

HANDS-ON MUSIC LITERACY

Note Knacks are an interactive, hands-on learning tool that allows children to learn and absorb music notation concepts by working with these specially-designed manipulatives. The tiles provide kids with a physical representation of the five different rest and note values by length, color and notation. The note is on one side; the rest is on the other. Also, each tile is color coded so if you say the color, you say the rhythm! Included time signature "frames" for 2/4, 3/4, and 4/4 time allows kids to self-correct their work.

The Note Knacks lesson plans that supplement the tiles works for all kinds of learners utilizing visual, aural, and kinesthetic cues, and offers opportunities for quick and easy assessments in the classroom and can be used in a classroom, small group setting, or individually. Children are able to internalize the concepts and create their own compositions, building a strong musical foundation.

What teachers are saying about Note Knacks®!

"I believe Note Knacks are the single most important purchase I've made in over 11 years of teaching elementary music. The children 'get it' almost immediately. And in 2nd grade when they are learning fractions with their regular teacher, we are able to do the same in music with a very visual tool. My curriculum revolves around them."

- Katie, Paulding County

All this week when I poured out my Note Knacks on the floor to set the students up for solving the first measure of a Orff piece we are working on, students excitedly exclaimed "Oh, I LOVE these!"

- Mrs. Hunter Y. Britton, The Villages Charter Schools

"I love it! Getting 5th graders who don't want to do anything – but they will use these! Note Knacks have brought some new joy to my class and my teaching!"

- Joshua Bradford, Ft Worth, Texas

"I just had to tell you that I was able to use your Note Knacks with my students immediately upon my return from the conference and they were a huge hit. I am currently in a guided composition unit with 2nd-5th grade levels and have used Note Knacks to help students write their rhythms. It was a great success."

- Gary W. Lenz, Buford City, Georgia

"It has reached my kinesthetic learners and grabbed my visual learners. The best investment in my elementary program in years and we are already seeing the benefits!"

- Anna Jo Knight, Abernathy, Texas

"They help me do less lecture and allow the students to explore rhythms on their own. They are also a wonderful center tool for an introduction to composition."

- Rachel Namain, Klein, Texas

"I have used the Note Knacks system in my classroom for 5 years and all I can say is "WOW!" Every student in my school now reads rhythms at or above grade level expectancy."

- Kelly McGovern, Tomball, Texas

Visit www.noteknacks.com for Sample Lesson Plans

"I was introduced to Note Knacks at a conference and immediately fell in love! I knew that if I couldn't stop playing with them that they would be sure to keep my students engaged. I have used them for whole group work, workstations, composition and even rhythmic remediation. They are one of my go-to teaching aids."

-Tracy King, Fredericktown School District, Fredericktown, Missouri

Note Knacks

Classroom research has shown the enormous positive impact of manipulatives on learning. Note Knacks applies those concepts to teaching music.

With 9 strands of metal beads against the textured steel cylinder, it provides additional diffusion and volume. The beads are just loose enough for shaking and spinning techniques.
RBDLX660 \$39.95

Single Bongo - Produced by artisans who craft professional congas and bongos, the drum shell features sturdy, two-ply Siam Oak staves with superb fit and finish. The pre-tuned head is high-grade rawhide. The drum stands 6" tall, 5.5" diameter and with a nylon handle.
RBDLX1301 \$21.95

Unique Bird Call - Fun and engaging, this unique instrument creates a bird-like chirrup effect using wood-on-wood friction. Played by twisting. No blowing required.
RBDLX-BRD \$14.95

Large Tick Tock Block -This large dual-tone block is made from high quality hardwood with extra attention to wood grade, tone, balance and general aesthetics. Create bright, clear tones using the included wooden beater.
RBDLX700 \$10.95

Large Wood Maracas- These large wooden maracas feature steel shot for a bright, energetic sound. Well-balanced for easy playing, they are beautifully finished in gloss red with hand-painted accents.
RBDLX1210R \$15.95

Bob McGrath, "Bob on Sesame Street"

BOB MCGRATH RHYTHM BAND SET

The instruments included in this unique set were selected by Bob McGrath on "Bob on Sesame Street", and are sure to be a hit with preschoolers and kids in the early elementary grades. The instruments can be used successfully with the Music For Fun! book and CD by Warner Brothers, and also with Bob's other recordings listed on this page.

RB52 \$49.95

Play-along CD included!

Winner of Parents' Choice Award

Set includes an interactive CD, performed by Mark Walker and narrated by Bob. Listeners discover each instrument in a game by the Sound, Shape, and Color. Listeners can then play along with five world rhythms: Cha Cha from Cuba, Awa Odori from Japan, Saidi from Egypt, March from New Orleans, and Samba from Brazil. In each of the World Rhythms, Mark plays three or four authentic percussion instruments from that country. Listeners learn the names and sounds of 13 different world percussion instruments that Bob identifies.

Walk About CD by Mary Knysh

This CD is a musical journey beginning with a Native American chant and featuring Caribbean, African, Irish, South American, Aboriginal and Russian folk songs with performances by Mary on a variety of instruments. An excellent introduction to different musical experiences. **MKWA \$15.00**

A Day in the Forest by Mary Knysh

This CD is an exciting contemporary composition created by Mary and Clíodhna Ni Aodain to promote and inspire active learning and creative movement as a means for storytelling in early childhood and primary classrooms. There are two musical story versions on the CD, one with a story narration and the other music only so that children engage in using their own imaginations to create the movement story. The music features five movements: daybreak, morning, storm, rainbow and nightfall. "This is a fantastic way to get young people into creative movement and storytelling at the same time!" **MKADF \$15.00**

THE STANDARD BY WHICH ALL OTHERS ARE JUDGED. You are sure to be pleased with the sound, design, and durability of STUDIO 49 Orff Instruments. These legendary instruments are handcrafted in Germany to meet the high standards of composer and music educator Carl Orff and STUDIO 49 founder Klaus Becker-Ehmek.

TIPS

BE COOL

The resonance chambers of all instruments require the same care. Store away from direct sun and heat.

KEEP IT CLEAN

Wipe xylophone bars occasionally with a good quality furniture polish, preferably one with a lemon base. Wipe glockenspiel or metallophone bars occasionally with a lightly oiled cloth. Bore oil for woodwind instruments is a good choice. This will help prevent rust.

NO ROUGH STUFF

If rust exists on glockenspiel or metallophone bars, do not use an abrasive. Clean with a good metal polish; then apply oil. Bore oil for woodwind instruments is a good choice.

FROM THE TOP

When removing bars from a pitched instrument, grasp the top of the bar and lift it toward you. This prevents pins from being bent and lessens the chance of the bar being dropped.

WHAT'S THE BUZZ?

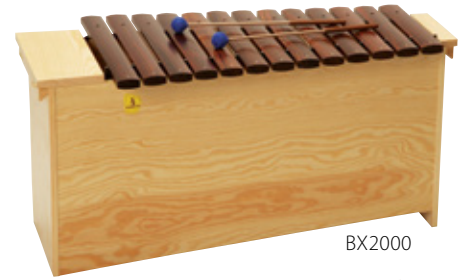

If a bar is buzzing when played, the problem is either with the bar or the resonance box. To determine which it is, move the buzzing bar to another location on the resonance box where there is not a buzzing problem. If the bar still buzzes in the new location, it may need to be replaced. If the bar does not buzz in the new location, the problem is the resonance box. Run a bead of silicone caulk or wood glue along the seams and let it dry. Do not replace the bar or play until it is completely dry.

Sonor Palisano & Rosewood

SONOR PALISANO® XYLOPHONES

- Constructed of fiberglass, which produces more brilliant tones with increased sustain compared to natural wood.
 - Bars maintain consistent pitch which increases durability, whereas the tuning of natural wood can be affected due to exposure to temperature & humidity.
 - Denser & heavier than natural wood bars, so they provide a more stable & consistent playing surface (bars do not "jump" off the box due to heavy playing & off-center bar strikes).
 - Precisely over tone tuned to A 440, with note name stamped in the bar's center.
 - Pine resonator boxes with 100% glued seams to provide true resonance & ensure sound clarity.
- *Oversize shipping charges apply.*

TERMS AND CONDITIONS**RBI'S GUARANTEE**

We want you to be happy with every item you purchase from our company. If for any reason you are not pleased, we will accept returns for full credit or refund within 30 days of receipt.

PAYMENT

Payment can be made by check in advance or by credit card. We accept Visa, MasterCard, American Express and Discover. Rhythm Band accepts properly executed purchase orders from schools and institutions.

SHIPPING

RBI can ship via most small package delivery companies and the US Postal Service. If you request delivery by a particular delivery company, your cost may be higher than our standard rates. APO/FPO and oversized items as indicated in our catalog require additional shipping charges. Some very large orders require motor freight.

OVERSIZED ITEMS

Oversized items are indicated throughout the catalog by an asterisk next to the part number. Shipping cost is higher on these items. Freight quotes are available upon request.

SHIPPING DAMAGE OR SHORTAGES

Rhythm Band Instruments packages and ships product in a manner that will protect it from most damage during shipping. Shipments leave our warehouse in good condition and RBI cannot be held responsible for damages caused by the carrier. Inspect your shipment immediately upon receipt and report any damages either outward or concealed to the driver and contact your RBI customer service representative for further assistance. Please report any shortages to RBI customer service within 5 business of the receipt of the shipment. RBI cannot be held responsible for shortages reported after 5 business days.

SHIPPING CHARGES:

Minimum - up to \$75.00.....\$10.00
 \$75.01 to \$250.00 12% of Order
 \$250.01 to \$500 10% of Order
