GENUINE SERVICE Since 1961

2021 marks sixty years of business for Rhythm Band Instruments.

While we sprang from modest beginnings, RBI has been a leader in elementary products for as long as we've been in business. The early years saw Tommy and Woods Moore operating from the loft of Ault Music in downtown Fort Worth. To keep up with demand, the Moores expanded to a three-story warehouse and manufacturing facility just east of downtown. From there the business flourished.

Of course, you simply can't have a conversation about our company without Bob and Laura Bergin. From the mid-seventies, until 2007, Bob and Laura built relationships with music supervisors and educators across the country. To this day, their broad influence is felt in everything we do for our elementary music educators. Innovation, quality, and value, with a good dose of personal attention, are the qualities we learned from Bob and Laura, and we do our very best to carry those on today.

Since 2008, we've grown tremendously, expanding into broader music markets and along the way adding brands such as Boomwhackers®, Toca Percussion®, and Grover Pro Percussion®. We continue to grow and expand, but we know the legacy of the company is RBI's elementary music products, and the educators and employees who have made us successful. From the bottom of our hearts, we thank you.

MORE THREE-PIECE SOPRANO RECORDERS

What's the difference between one, two and three-piece recorders? One piece recorders are best for beginning players and classroom settings. Why? Because younger players might have a tendency to turn the bodies (the joints) and make changes to the tuning. Older, more accomplished players and their teachers will

appreciate the 2 and 3 piece recorders for playing in ensembles because of the ability to change tuning

and gain more precise intonation.

NEW Recorder with Poems and

Tales by Donna Basil

Developing technique on recorder, as with any instrument, requires a certain amount of repetition. Stories and poetry can be the perfect vehicle for this repetition. Whether it is a single note, a combination of notes, or an entire melody, this book contains examples for each type of repetition. Stories and poetry can also be used as an effective tool for creativity, by providing inspiration and parameters. In addition, stories can be used to tie together several short melodies for performance or review.

Soundbellows

A brand-new addition to our Boomwhackers® and CHROMA-NOTES® family!

Soundbellows® close a gap in educational instruments used for making music in the classroom. The "handy" instruments ideally complement Orff instruments and Boomwhackers®, two of the most dynamic names in modern music teaching. By using small bellows to generate sound, this instrument is suitable for every age group, and you can start making music right away. Differentiated playing with varying sound lengths and volume levels is an important quality in making music with Soundbellows®. Group play of the Soundbellows® produces a natural sound similar to a harmonica or an accordion. In this way, Soundbellows® provide a unique additional timbre to a musical arrangement for several instrument groups. Even Soundbellows® alone as a homogeneous body of sound can produce a can produce a pleasant musical outcome.

As a STEAM music teacher. I am constantly searching for ideas to connect my classroom to the outside world. The Rhythm Clock has unlimited possibilities. By using the DVD. the kids are able to learn dictation while connecting the note values to both math and science. Without the DVD. rhythmic composition is a breeze. The circular shape helps my students understand that only 4 beats can fit into a 4/4 measure.

-Juli Salzman, Northside Elementary, Angleton ISD

Great learning tool for arts integration into the classroom!

Rhythm Clock

The Rhythm Clock is both a music and math manipulative that provides a great STEM to STEAM bridge.

Front Back

FROM THE GAMES METHOD, WE BRING YOU THE RHYTHM CLOCK $^{\mathsf{TM}}$

This cross-curricular learning tool came out of The STREAM-liners program, run by an organization called The Artist Outreach. Founded by Joseph Vincelli, they integrate music with other subjects, such as vocabulary and geometry, in order to reach learners of all types. The clock comes with a board with the 12, 3, 6 and 9 delineated and comes with manipulatives that allow learning in a number of different areas. All pieces have the note on one side and the corresponding rest on the other side and feature the Note Knacks® color system. You receive: 1 whole note/rest, 2 half note/rests, 4 quarter note/rests, 8 eight notes/rest, and 16 sixteenth notes/rest.

- The clock also shows the 4 directions with north pointing on the "12" position on the clock and features fractions on the note side with corresponding decimals on the rest side.
- Each piece features the percentage of the circumference of the board.
- The back of the board has a table of shapes, fractions, decimals, notes, rests, degrees, percentage, and money
- Includes a DVD that plays all of the sample rhythms so your students can experience the sounds as well! **GMRC** \$45.35 (suggested for ages 6 and up)

Note Knacks

HANDS-ON MUSIC LITERACY

Note Knacks are an interactive, hands-on learning tool that allows children to learn and absorb music notation concepts by working with these specially-designed manipulatives. The tiles provide kids with a physical representation of the five different rest and note values by length, color and notation. The note is on one side; the rest is on the other. Also, each tile is color coded so if you say the color, you say the rhythm! Included time signature "frames" for 2/4, 3/4, and 4/4 time allows kids to self-correct their work.

The Note Knacks lesson plans that supplement the tiles works for all kinds of learners utilizing visual, aural, and kinesthetic cues, and offers opportunities for quick and easy assessments in the classroom and can be used in a classroom, small group setting, or individually. Children are able to internalize the concepts and create their own compositions, building a strong musical foundation.

What teachers are saying about Note Knacks[®]!

"I believe Note Knacks are the single most important purchase I've made in over 11 years of teaching elementary music. The children 'get it' almost immediately. And in 2nd grade when they are learning fractions with their regular teacher, we are able to do the same in music with a very visual tool. My curriculum revolves around them."

- Katie, Paulding County

All this week when I poured out my Note Knacks on the floor to set the students up for solving the first measure of a Orff piece we are working on, students excitedly exclaimed "Oh, I LOVE these!"

- Mrs. Hunter Y. Britton, The Villages Charter Schools

"I love it! Getting 5th graders who don't want to do anything – but they will use these! Note Knacks have brought some new joy to my class and my teaching!" - Joshua Bradford, Ft Worth, Texas

"I just had to tell you that I was able to use your Note Knacks with my students immediately upon my return from the conference and they were a huge hit. I am currently in a guided composition unit with 2nd-5th grade levels and have used Note Knacks to help students write their rhythms. It was a great success."

- Gary W. Lenz, Buford City, Georgia

"It has reached my kinesthetic learners and grabbed my visual learners. The best investment in my elementary program in years and we are already seeing the benefits!" - Anna Jo Knight, Abernathy, Texas

"They help me do less lecture and allow the students to explore rhythms on their own. They are also a wonderful center tool for an introduction to composition."

- Rachel Namain, Klein, Texas

"I have used the Note Knacks system in my classroom for 5 years and all I can say is "WOW!" Every student in my school now reads rhythms at or above grade level expectancy."

- Kelly McGovern, Tomball, Texas

Note Knacks

Classroom research has shown the enormous positive impact of manipulatives on learning. Note Knacks applies those concepts to teaching music.

Video demonstration available at rhythmband.com

"I was introduced to Note Knacks at a conference and immediately fell in love! I knew that if I couldn't stop playing with them that they would be sure to keep my students engaged. I have used them for whole group work, workstations, composition and even rhythmic remediation. They are one of my go-to teaching aids."

ACTIVELY RINGINGBY EMILY BRACKNEY

Get your students Actively Ringing! Bells and chimes are accessible instruments that can be used to teach ostinato, chords, simple accompaniments, and basic small-group composition along with music literacy. Teachers can combine these instruments with unison and part-singing, recorders, Orff instruments, and movement. This book provides fresh ideas for children to actively make their own music and accompany their own singing. Most of these activities will translate easily to a performance situation without requiring students to have individual scores in front of them. For teachers with large music classes, the activities involve everyone simultaneously, i.e., we play, you sing, they move, and we ALL make music! Includes book and DVD.

SINGLE RING MELODY BELLS

Designed to be played like traditional handbells, the large clapper is directional to allow for a loud, single strike. Each note has a plastic rest that allows the bell to be laid on the table without touching metal to the surface. Twelve **NEW** items. Each has been carefully chosen for sound and exceptional long lasting quality. Ideal for Elementary, Middle, and High School use.

Deluxe Wood Maracas

10" long and filled with steel shot. The deluxe wood shells of this upgraded set of maracas provide a warm compliment to the brightness of the steel shot filler. With extra attention to balance, fit and finish, this set of maracas is a cut above RBDLX1200 \$24.95

Deluxe Rosewood Claves

These durable and beautifully finished deluxe rosewood claves have a full, superior sound! Sold as a pair. **RB724** \$29.95

Wooden Egg Shaker

2-3/8" Filled with steel shot Perfect for a subtle accent or for studio-grade effects, the bright attack of the steel shot against the carefully crafted wood shell is a great addition to any sound palette.

RBDLX200 \$5.95

Kalimba

Featuring expertly tuned, high quality metal tines, this kalimba is a joy to play. Pleasing pentatonic intervals simplify making music. The solid hardwood body is sturdy with a satin finish.

RBDLX-KAL \$49.95

Deluxe 15" Wood Güiro (Fish Finish)

Our deluxe wood güiro takes this instrument, which is critical to many Afro-Cuban rhythms, to the next level with higher grade wood and improved fit and finish. Includes traditional wood scraper.

RBDLX1210 \$25.95

Deluxe Large Cabasa

This large afuche-style cabasa is the modern expression of the old African gourd-based instrument. With 9 strands of metal beads against the textured steel cylinder, it provides additional diffusion and volume. The beads are just loose enough for shaking and spinning techniques.

RBDLX660 \$39.95

Double Bongo

These bongos are made from the same materials and techniques used in the production of the world's finest professional percussion instruments. Two-ply Siam Oak staves with superb fit and finish are topped by high-quality rawhide heads. Both the 5" Macho and 5.5" Hembra stand 6" tall.

RBDLX1302 \$39.95

Unique Bird Call

Fun and engaging, this unique instrument creates a bird-like chirrup effect using wood-on-wood friction. Played by twisting. No blowing required.

RBDLX-BRD \$16.95

Single Bongo

Produced by artisans who craft professional congas and bongos, the drum shell features sturdy, two-ply Siam Oak staves with superb fit and finish. The pre-tuned head is high-grade rawhide. The drum stands 6" tall, 5.5" diameter and with a nylon handle.

RBDLX1301 \$24.95

and lots of fun!"

Bob McGrath, "Bob on Sesame Street"

BOB MCGRATH RHYTHM BAND SET

The instruments included in this unique set were selected by Bob McGrath on "Bob on Sesame Street", and are sure to be a hit with preschoolers and kids in the early elementary grades. The instruments can be used successfully with the Music For Fun! book and CD by Warner Brothers, and also with Bob's other recordings listed on this page. **RB52** \$56.75

Winner of Parents' Choice Award

Set includes an interactive CD, performed by Mark Walker and narrated by Bob. Listeners discover each instrument in a game by the Sound, Shape, and Color. Listeners can then play along with five world rhythms: Cha Cha from Cuba, Awa Odori from Japan, Saidi from Egypt, March from New Orleans, and Samba from Brazil. In each of the World Rhythms, Mark plays three or four authentic percussion instruments from that country. Listeners learn the names and sounds of 13 different world percussion instruments that Bob identifies.

TIPS

BE COOL

The resonance chambers of all instruments require the same care. Store away from direct sun and heat.

KEEP IT CLEAN

Wipe xylophone bars occasionally with a good quality furniture polish, preferably one with a lemon base. Wipe glockenspiel or metallophone bars occasionally with a lightly oiled cloth. Bore oil for woodwind instruments is a good choice. This will help prevent rust.

NO ROUGH STUFF

If rust exists on glockenspiel or metallophone bars, do not use an abrasive. Clean with a good metal polish; then apply oil. Bore oil for woodwind instruments is a good choice.

FROM THE TOP

When removing bars from a pitched instrument, grasp the top of the bar and lift it toward you. This prevents pins from being bent and lessens the chance of the bar being dropped.

WHAT'S THE BUZZ?

If a bar is buzzing when played, the problem is either with the bar or the resonance box. To determine which it is, move the buzzing bar to another location on the resonance box where there is not a buzzing problem. If the bar still buzzes in the new location, it may need to be replaced. If the bar does not buzz in the new location, the problem is the resonance box. Run a bead of silicone caulk or wood glue along the seams and let it dry. Do not replace the bar or play until it is completely dry.

STUDIO 49 SERIES 1000

Compact Instruments Ideal for Elementary Music Education

Series 1000 instruments combine the ideal features for children's music education for any classroom setting. The soprano and alto instruments are "stackable" which saves storage space and handles make transportation them especially easy. The design also allows the instrument to be played on a table from a sitting or standing position. The three resonance chambers in the soprano range and six chambers in the alto range ensure balanced quality and sound. F# and Bb bars included with 1 pair of mallets.

- Solfege and pitch names included on bars
- Overtone and fundamental tuning
- The same bars as used on the Series 1600 instruments

SONOR PALISONO® XYLOPHONES

- Constructed of fiberglass, which produces more brilliant tones with increased sustain compared to natural wood.
- Bars maintain consistent pitch which increases durability, whereas the tuning of natural wood can be affected due to exposure to temperature & humidity.
- Denser & heavier than natural wood bars, so they provide a more stable & consistent playing surface (bars do not "jump" off the box due to heavy playing & off-center bar strikes).
- Precisely over tone tuned to A 440, with note name stamped in the bar's center.
- Pine resonator boxes with 100% glued seams to provide true resonance & ensure sound clarity.

TERMS AND CONDITIONS

RBI'S GUARANTEE

We want you to be happy with every item you purchase from our company. If for any reason you are not pleased, we will accept returns for full credit or refund within 30 days of receipt.

PAYMENT

Payment can be made by check in advance or by credit card. We accept Visa, MasterCard, American Express and Discover. Rhythm Band accepts properly executed purchase orders from schools and institutions.

SHIPPING

RBI can ship via most small package delivery companies and the US Postal Service. If you request delivery by a particular delivery company, your cost may be higher than our standard rates. APO/FPO and oversized items as indicated in our catalog require additional shipping charges. Some very large orders require motor freight.

OVERSIZED ITEMS

Oversized items are indicated throughout the catalog by an asterisk next to the part number. Shipping cost is higher on these items. Freight quotes are available upon request.

SHIPPING DAMAGE OR SHORTAGES

Rhythm Band Instruments packages and ships product in a manner that will protect it from most damage during shipping. Shipments leave our warehouse in good condition and RBI cannot be held responsible for damages caused by the carrier. Inspect your shipment immediately upon receipt and report any damages either outward or concealed to the driver and contact your RBI customer service representative for further assistance. Please report any shortages to RBI customer service within 5 business of the receipt of the shipment. RBI cannot be held responsible for shortages reported after 5 business days.

SHIPPING CHARGES:

Minimum - up to \$75.00	\$10.00
\$75.01 to \$250.00	12% of Order
\$250.01 to \$500	10% of Order
\$500.01 and up	8% of Order

Express shipping is available at a higher price. Call for shipping rates.

Oversized products are identified throughout the catalog and will have an additional shipping charge depending on the size of the item.

Shipments outside the 48 contiguous United States and APO/FPO's will be charged the higher of 20% shipping or published carrier rates.

All freight charges are subject to change at any time due to carrier price adjustments, including fuel surcharges.

All prices subject to change without notice.
