FAQ

What's the difference between one, two and three-piece recorders?

One piece recorders are best for beginning players and classroom settings. Why? Because younger players might have a tendency to turn the bodies (the joints) and make changes to the tuning. Older, more accomplished players and their teachers will appreciate the 2 and 3 piece recorders for playing in ensembles because of the ability to change tuning and gain more precise intonation.

BRADLEY BONNER METHOD

Getting Started with Soprano Recorder

An innovative and motivating way to introduce first time players to the soprano recorder. The CD included offers all of the lesson tracks, plus performance versions, for play-along after the lesson has been learned. The DVD tracks demonstrate visually and audibly the physical process of playing the instrument. Notes to play appear on the staff synchronized with the audio that accompanies them. Teachers can face the DVD video toward the players and the audio toward the audience if music notation is required for performance.

The Elemental Style by Paul B Cribari and Richard D Layton

Based on the models presented in Orff and Keetman's Music for Children volumes. A must-have resource for teachers of the elemental style. Guiding the reader from the foundational concepts of basic rhythmic cells and elemental forms to the construction of melodies and static accompaniments in the pentatonic and diatonic modes. Supplemental resources include a glossary of frequently used terminology in composition for the elemental instrumentarium along with practical and technical ranges of the various instruments.

SP2420

NEW Recorder with Poems and Tales by Donna Basil

Developing technique on recorder, as with any instrument, requires a certain amount of repetition. Stories and poetry can be the perfect vehicle for this repetition. Whether it is a single note, a combination of notes, or an entire melody, this book contains examples for each type of repetition. Stories and poetry can also be used as an effective tool for creativity, by providing inspiration and parameters. In addition, stories can be used to tie together several short melodies for performance or review.

soundbellows

A brand-new addition to our Boomwhackers® and CHROMA-NOTES® family!

Soundbellows® close a gap in educational instruments used for making music in the classroom. The "handy" instruments ideally complement Orff instruments and Boomwhackers®, two of the most dynamic names in modern music teaching. By using small bellows to generate sound, this instrument is suitable for every age group, and you can start making music right away. Differentiated playing with varying sound lengths and volume levels is an important quality in making music with Soundbellows®. Group play of the Soundbellows® produces a natural sound similar to a harmonica or an accordion. In this way, Soundbellows® provide a unique additional timbre to a musical arrangement for several instrument groups. Even Soundbellows® alone as a homogeneous body of sound can produce a can produce a pleasant musical outcome.

- Joyful playing for the young and old
- Produces different sound lengths and intensities
- Intuitive handling
- Ideal for music education and therapy

Great learning tool for arts integration into the classroom!

Rhythm Clock

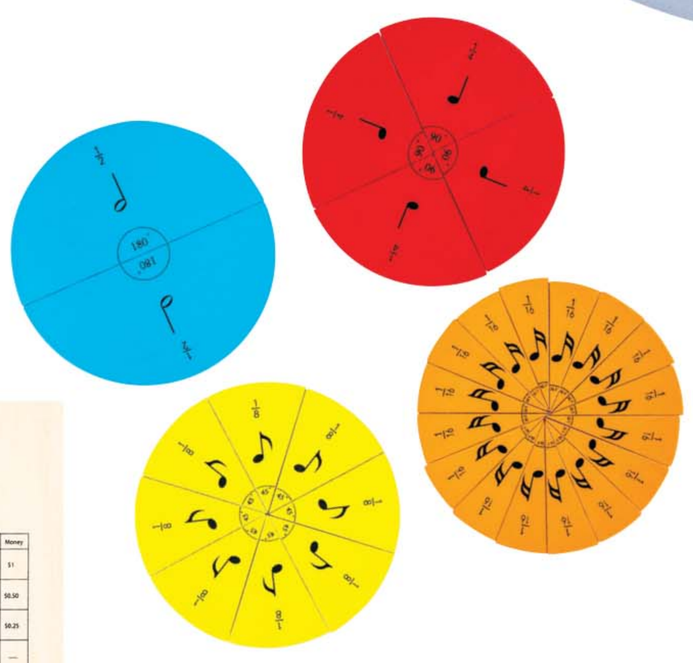

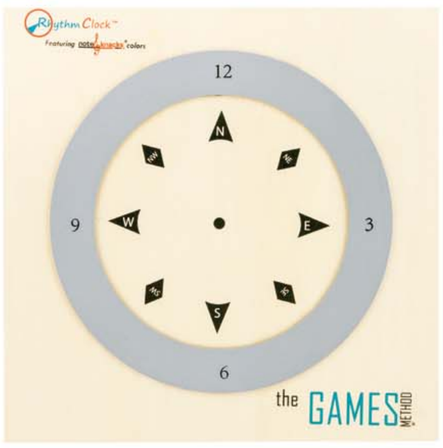

As a STEAM music teacher, I am constantly searching for ideas to connect my classroom to the outside world. The Rhythm Clock has unlimited possibilities. By using the DVD, the kids are able to learn dictation while connecting the note values to both math and science. Without the DVD, rhythmic composition is a breeze. The circular shape helps my students understand that only 4 beats can fit into a 4/4 measure.

-Juli Salzman, Northside Elementary, Angleton ISD

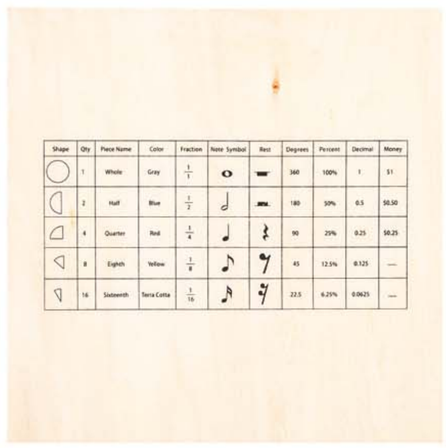

Front

Back

The Rhythm Clock is both a music and math manipulative that provides a great STEM to STEAM bridge.

FROM THE GAMES METHOD, WE BRING YOU THE RHYTHM CLOCK™

This cross-curricular learning tool came out of The STREAM-liners program, run by an organization called The Artist Outreach. Founded by Joseph Vincelli, they integrate music with other subjects, such as vocabulary and geometry, in order to reach learners of all types. The clock comes with a board with the 12, 3, 6 and 9 delineated and comes with manipulatives that allow learning in a number of different areas. All pieces have the note on one side and the corresponding rest on the other side and feature the Note Knacks® color system. You receive: 1 whole note/rest, 2 half note/rests, 4 quarter note/rests, 8 eight notes/rest, and 16 sixteenth notes/rest.

- The clock also shows the 4 directions with north pointing on the "12" position on the clock and features fractions on the note side with corresponding decimals on the rest side.
- Each piece features the percentage of the circumference of the board.
- The back of the board has a table of shapes, fractions, decimals, notes, rests, degrees, percentage, and money
- Includes a DVD that plays all of the sample rhythms so your students can experience the sounds as well!

Note Knacks

HANDS-ON MUSIC LITERACY

Note Knacks are an interactive, hands-on learning tool that allows children to learn and absorb music notation concepts by working with these specially-designed manipulatives. The tiles provide kids with a physical representation of the five different rest and note values by length, color and notation. The note is on one side; the rest is on the other. Also, each tile is color coded so if you say the color, you say the rhythm! Included time signature "frames" for 2/4, 3/4, and 4/4 time allows kids to self-correct their work.

The Note Knacks lesson plans that supplement the tiles works for all kinds of learners utilizing visual, aural, and kinesthetic cues, and offers opportunities for quick and easy assessments in the classroom and can be used in a classroom, small group setting, or individually. Children are able to internalize the concepts and create their own compositions, building a strong musical foundation.

Note Knacks® Method.

What teachers are saying about Note Knacks®!

"I believe Note Knacks are the single most important purchase I've made in over 11 years of teaching elementary music. The children 'get it' almost immediately. And in 2nd grade when they are learning fractions with their regular teacher, we are able to do the same in music with a very visual tool. My curriculum revolves around them."
- Katie, Paulding County

All this week when I poured out my Note Knacks on the floor to set the students up for solving the first measure of a Orff piece we are working on, students excitedly exclaimed "Oh, I LOVE these!"
- Mrs. Hunter Y. Britton, The Villages Charter Schools

"I love it! Getting 5th graders who don't want to do anything – but they will use these! Note Knacks have brought some new joy to my class and my teaching!"
- Joshua Bradford, Ft Worth, Texas

"I just had to tell you that I was able to use your Note Knacks with my students immediately upon my return from the conference and they were a huge hit. I am currently in a guided composition unit with 2nd-5th grade levels and have used Note Knacks to help students write their rhythms. It was a great success."
- Gary W. Lenz, Buford City, Georgia

"It has reached my kinesthetic learners and grabbed my visual learners. The best investment in my elementary program in years and we are already seeing the benefits!"
- Anna Jo Knight, Abernathy, Texas

"They help me do less lecture and allow the students to explore rhythms on their own. They are also a wonderful center tool for an introduction to composition."
- Rachel Namain, Klein, Texas

"I have used the Note Knacks system in my classroom for 5 years and all I can say is "WOW!" Every student in my school now reads rhythms at or above grade level expectancy."
- Kelly McGovern, Tomball, Texas

Classroom research has shown the enormous positive impact of manipulatives on learning. Note Knacks applies those concepts to teaching music.

Video demonstration available at rhythmband.com

"I was introduced to Note Knacks at a conference and immediately fell in love! I knew that if I couldn't stop playing with them that they would be sure to keep my students engaged. I have used them for whole group work, workstations, composition and even rhythmic remediation. They are one of my go-to teaching aids."

-Tracy King, Fredericktown School District, Fredericktown, Missouri

ACTIVELY RINGING
BY EMILY BRACKNEY

Get your students Actively Ringing! Bells and chimes are accessible instruments that can be used to teach ostinato, chords, simple accompaniments, and basic small-group composition along with music literacy. Teachers can combine these instruments with unison and part-singing, recorders, Orff instruments, and movement. This book provides fresh ideas for children to actively make their own music and accompany their own singing. Most of these activities will translate easily to a performance situation without requiring students to have individual scores in front of them. For teachers with large music classes, the activities involve everyone simultaneously, i.e., we play, you sing, they move, and we ALL make music! Includes book and DVD.

Deluxe Handheld Percussion from Rhythm Band!

Twelve **NEW** items. Each has been carefully chosen for sound and exceptional long lasting quality. Ideal for Elementary, Middle, and High School use.

Deluxe Wood Maracas

10" long and filled with steel shot. The deluxe wood shells of this upgraded set of maracas provide a warm compliment to the brightness of the steel shot filler. With extra attention to balance, fit and finish, this set of maracas is a cut above

RBDLX1200

Wooden Egg Shaker

2-3/8" Filled with steel shot Perfect for a subtle accent or for studio-grade effects, the bright attack of the steel shot against the carefully crafted wood shell is a great addition to any sound palette.

RBDLX200

Deluxe 15" Wood Güiro (Fish Finish)

Our deluxe wood güiro takes this instrument, which is critical to many Afro-Cuban rhythms, to the next level with higher grade wood and improved fit and finish. Includes traditional wood scraper.

RBDLX1210

Double Bongo

These bongos are made from the same materials and techniques used in the production of the world's finest professional percussion instruments. Two-ply Siam Oak staves with superb fit and finish are topped by high-quality rawhide heads. Both the 5" Macho and 5.5" Hembra stand 6" tall.

RBDLX1302

Single Bongo

Produced by artisans who craft professional congas and bongos, the drum shell features sturdy, two-ply Siam Oak staves with superb fit and finish. The pre-tuned head is high-grade rawhide. The drum stands 6" tall, 5.5" diameter and with a nylon handle.

RBDLX1301

Large Tick Tock Block

This large dual-tone block is made from high quality hardwood with extra attention to wood grade, tone, balance and general aesthetics. Create bright, clear tones using the included wooden beater.

RBDLX700

Deluxe Rosewood Claves

These durable and beautifully finished deluxe rosewood claves have a full, superior sound! Sold as a pair.

RB724

Kalimba

Featuring expertly tuned, high quality metal tines, this kalimba is a joy to play. Pleasing pentatonic intervals simplify making music. The solid hardwood body is sturdy with a satin finish.

RBDLX-KAL

Deluxe Large Cabasa

This large afuche-style cabasa is the modern expression of the old African gourd-based instrument. With 9 strands of metal beads against the textured steel cylinder, it provides additional diffusion and volume. The beads are just loose enough for shaking and spinning techniques.

RBDLX660

Unique Bird Call

Fun and engaging, this unique instrument creates a bird-like chirrup effect using wood-on-wood friction. Played by twisting. No blowing required.

RBDLX-BRD

Deluxe Tambourine

8" 8 Jingle Deluxe Wood Rim Tambourine with durable synthetic Polyfiber head.

RB588

Early Childhood

"Music makes you smarter and is lots and lots of fun!"
Bob McGrath, "Bob on Sesame Street"

BOB MCGRATH RHYTHM BAND SET

The instruments included in this unique set were selected by Bob McGrath on "Bob on Sesame Street", and are sure to be a hit with preschoolers and kids in the early elementary grades. The instruments can be used successfully with the Music For Fun! book and CD by Warner Brothers, and also with Bob's other recordings listed on this page.
RB52

Winner of Parents' Choice Award

Set includes an interactive CD, performed by Mark Walker and narrated by Bob. Listeners discover each instrument in a game by the Sound, Shape, and Color. Listeners can then play along with five world rhythms: Cha Cha from Cuba, Awa Odori from Japan, Saidi from Egypt, March from New Orleans, and Samba from Brazil. In each of the World Rhythms, Mark plays three or four authentic percussion instruments from that country. Listeners learn the names and sounds of 13 different world percussion instruments that Bob identifies.

Play-along CD included!
