Boomwhackers® Beatz Online

Teach essential musical concepts with Boomwhackers®! This product combines the Boomwhacker Beatz Song and Games CD with the Boomwhacker Beatz Curriculum Edition DVD. Upon purchase, you will receive a card with a QR code and a one-time use code to download the files. The Boomwhacker Beatz Program is perfect for music classrooms, allowing teachers to use Boomwhackers pitched percussion tubes for engaging lessons. With just a whiteboard or projector connected to your computer, you can play animations and games for a fun learning experience.

The program includes four sections: warm-ups, tunes, games, and composition. Warm-ups feature colorful animations where children play their Boomwhackers when their color appears. Tunes are pieces you can teach and perform with the students. Games like 'Mystery Boomwhacker' and 'Music Line Wizard' develop essential musical skills. In the composition section, children make artistic choices about pitch, melody, and rhythm to create their own pieces. This version offers all the content of the original CD and DVD in one easily downloadable file, at less than half the original cost!

WHACK-A-DOODLE-DOO! SONGBOOK SERIES

Whack-a-Doodle-Do!

The first volume contains 19 familiar children's songs and one original song. It is designed to be used with the C Major Diatonic Scale Set, our most popular. It is also included in the Boomophone™ XTS Whack Pack and is the perfect companion for playing music with the XyloTote™ Tube Holder.

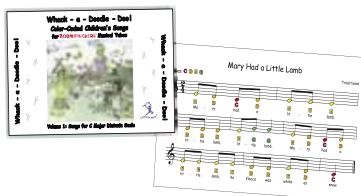

SB01

Whack-a-Doodle-Too!

This volume has 22 familiar children's songs and uses C Major Diatonic Scale Set and the Chromatics Set. The addition of chromatic notes allows a wider variety of songs. There are four different set-ups of tubes in the XyloTote™ for playing songs in various keys.

SB02

Whack Tracks

The Boomwhackers® Sessions

This is the first full-length CD to feature the Boomwhackers Musical Tubes being used to create intriguing, original compositions. Other instruments include guitar and an array of percussion instruments, including water-slap percussion on several songs.

CDW1

The musical notes in these songbooks are color-coded to match the Boomwhackers tubes! The colored notes enable anyone to easily play and learn about reading music at the same time. One person can play the songs on a XyloTote™ Tube Holder or several people can each have one or two tubes and play their notes as needed. Great for a family or group activity! *Combine with the Chroma-Note™ bells and chimes on page 20.

Actively Ringing

by Emily Brackney

Get your students Actively Ringing! Bells and chimes are accessible instruments that can be used to teach ostinato, chords, simple accompaniments, and basic small-group composition along with music literacy. Teachers can combine these instruments with unison and part-singing, recorders, Orff instruments, and movement. This book provides fresh ideas for children to actively make their own music and accompany their own singing. Most of these activities will translate easily to a performance situation without requiring students to have individual scores in front of them. For teachers with large music classes, the activities involve everyone simultaneously, i.e., we play, you sing, they move, and we ALL make music! Includes book and DVD.

MEET MARY KNYSH

If you haven't already experienced this dynamic and inspiring clinician at the AOSA or TMEA conventions, you can have her in your classroom with by using her fantastic books! As a cutting-edge workshop facilitator, trainer and consultant, Mary's clinics and learning materials emphasize creativity, leadership and nonverbal communications.

Besides being an Orff Schulwerk clinician, Mary also acts as a teaching artist for the Pennsylvania Council of the Arts, Young Audiences of NJ, and New York BOCES, and is an international master teacher/trainer with the Music for People organization. She also regularly travels as a Remo artist throughout the United States, Europe and Asia offering drum circle facilitator trainings, performances, and workshops.

Mary Knysh is also the founder of Rhythmic Connections (www.rhythmicconnections.com), an innovative company advancing education, health, and creative development through drum circles and music improvisation.

Simple and Daring

by James Oshitsky w/ Mary Knysh

BRAND NEW! This book provides you with an exciting array of activities to seamlessly sequence music improvisation experiences for K-12 students and adults. You will learn how to add improvisation to the common practices of band, orchestra, and chorus. Also covered in the book are descriptions for using percussion, voice, and mixed instrument groups for social-emotional learning and group improvisation.

MKSD1

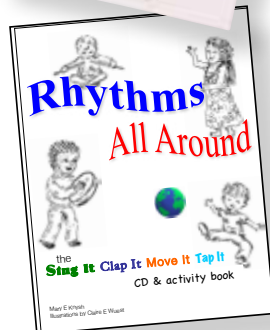

1-2 Let's All Play!

by Mary Knysh

This book expands drumming activities to include melodic and harmonic experiences, vocal drumming and movement. Intended for educators, facilitators and parents, these step-by-step activities explore ethnic traditions and non-verbal communication through improvisation.

MKLAP

Rhythms All Around

by Mary Knysh

This "Sing it, Tap it, Clap it" book and CD for children incorporates voice, body percussion, movements and instruments in 17 easy-to-apply lessons based on the philosophy "If you can say it, you can play it!" Great for early elementary.

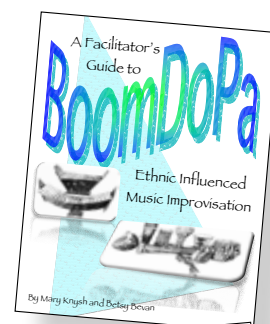

MKRAR

A Day in the Forest

by Mary Knysh

This CD is an exciting contemporary composition created by Mary and Cliona Ni Aodain to promote and inspire active learning and creative movement as a means for storytelling in early childhood and primary classrooms. There are two musical story versions on the CD, one with a story narration and the other music only so that children engage in using their own imaginations to create the movement story. The music features five movements: daybreak, morning, storm, rainbow and nightfall. "This is a fantastic way to get young people into creative movement and storytelling at the same time!"

MKADF

BoomDoPa

by Mary Knysh

A remarkably user-friendly guide and powerful teaching tool for music educators who are interested in self-expression through music improvisation. BoomDoPa offers 31 ethnic-influenced improvisations for a range of ages, appropriate for any classroom, and a great way to approach multi-cultural education.

SILVERTONE GUITARS

Silvertone introduced one of the earliest solid body guitars in the fall of 1954. That early model evolved into the 1303 in 1958. The Reissue 1303/U2 has all the vibe and twang of the original with some significant upgrades. The thru-body bridge provides great attack and hefty tone while giving you all the modern adjustment options you want. We also paid special attention to the neck profile, improving it with a modern C-shape, as well as coupling it to the body with a newly engineered neck joint system for longer sustaining notes.

1303 BK

1303 SVB

Hailing back to the year 1961, the Silvertone 604 was a student guitar for an entire generation. Upgrades from the original include a solid Engelmann Spruce top with Mahogany back and sides and a Rosewood fingerboard. The small Parlor size body makes it the perfect classroom guitar. Still perfect for students, this guitar is also great for accomplished players.

Bob McGrath, "Bob on Sesame Street"

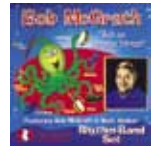

Bob McGrath Rhythm Band Set

The instruments included in this unique set were selected by Bob McGrath on "Bob on Sesame Street", and are sure to be a hit with preschoolers and kids in the early elementary grades.

RB52

Winner of Parents' Choice Award

Set includes an interactive download, performed by Mark Walker and narrated by Bob. Listeners discover each instrument in a game by the Sound, Shape, and Color. Listeners can then play along with five world rhythms: Cha Cha from Cuba, Awa Odori from Japan, Saidi from Egypt, March from New Orleans, and Samba from Brazil. In each of the World Rhythms, Mark plays three or four authentic percussion instruments from that country. Listeners learn the names and sounds of 13 different world percussion instruments that Bob identifies.

Play-along download included!

Note Knacks® Method.

HANDS-ON MUSIC LITERACY

Note Knacks are an interactive, hands-on learning tool that allows children to learn and absorb music notation concepts by working with these specially-designed manipulatives. The tiles provide kids with a physical representation of the five different rest and note values by length, color and notation. The note is on one side; the rest is on the other. Also, each tile is color coded so if you say the color, you say the rhythm! Included time signature "frames" for 2/4, 3/4, and 4/4 time allows kids to self-correct their work.

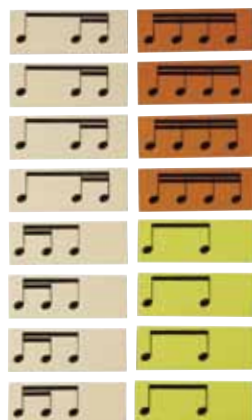

The Note Knacks lesson plans that supplement the tiles works for all kinds of learners utilizing visual, aural, and kinesthetic cues, and offers opportunities for quick and easy assessments in the classroom and can be used in a classroom, small group setting, or individually. Children are able to internalize the concepts and create their own compositions, building a strong musical foundation.

As a STEAM music teacher, I am constantly searching for ideas to connect my classroom to the outside world. The Rhythm Clock has unlimited possibilities. By using the DVD, the kids are able to learn dictation while connecting the note values to both math and science. Without the DVD, rhythmic composition is a breeze. The circular shape helps my students understand that only 4 beats can fit into a 4/4 measure.

-Juli Salzman, Northside Elementary, Angleton ISD

Great learning tool for arts integration into the classroom!

Rhythm Clock

Front

Back

The Rhythm Clock is both a music and math manipulative that provides a great STEAM to STEAM bridge.

FROM THE GAMES METHOD, WE BRING YOU THE RHYTHM CLOCK™

This cross-curricular learning tool came out of The STREAM-liners program, run by an organization called The Artist Outreach. Founded by Joseph Vincelli, they integrate music with other subjects, such as vocabulary and geometry, in order to reach learners of all types. The clock comes with a board with the 12, 3, 6 & 9 delineated and comes with manipulatives that allow learning in a number of different areas. All pieces have the note on one side and the corresponding rest on the other side and feature the Note Knacks® color system. You receive: 1 whole note/rest, 2 half note/rests, 4 quarter note/rests, 8 eighth notes/rest, and 16 sixteenth notes/rest.

- The clock also shows the 4 directions with north pointing on the "12" position on the clock and features fractions on the note side with corresponding decimals on the rest side.
- Each piece features the percentage of the circumference of the board.
- The back of the board has a table of shapes, fractions, decimals, notes, rests, degrees, percentage, and money
- Includes a DVD that plays all of the sample rhythms so your students can experience the sounds as well!
