

# Sympatico™ System from Toca!

## Tunability:

The Sympatico™ System has an innovative, and proprietary, internal tuning design. It's significantly lighter than traditional tuning systems, easy to use, and there's no extra bulky, heavy, hardware attached to the side of the drum to get in your way. In fact, it's hidden inside! The sound is at once amazing and, by virtue of the ability to tune, uniquely your own.

## Available Drums:

Toca is also introducing the new Freestyle II Tubadoras and Gathering Drums, which will come standard with the Sympatico™ System heads. Our newly rebranded Nesting Ashikos (formerly Flex Drums) will also now come standard with the New Sympatico Pre-tuned Fiber heads.

## Compatibility:

These heads are designed to simply integrate with Toca's existing line of Freestyle II Nesting Drums including Djembes, Tom-Toms & Djun-Djuns. If you already have one of these instruments, pop on a new Sympatico™ tunable head and bring your playing, and your sound, to a whole new level.

## The Heads:

There are three different head styles; Fiber, Fiber with Dot and Synthetic Leather, which offer bright/high, mellow/mid, or bass/low tones for any compatible instrument.

Drum Type	Available Sizes					"Stock" Head	Head Description	
	8	10	12	14	16	18		Part #
