GROVER PRO PERCUSSION®

GROVER PROTÉGÉ TAMBOURINES:

P-T2/GS - GERMAN SILVER LAMB

P-T2/BR - BRASS TAMB

- Meticulously developed to offer “Exceptional Sound, Unmatched Value”
- Ideal for general-purpose band and orchestral playing
- Caters to the needs of both aspiring musicians and seasoned educators
- Features a Hardwood shell with resilient high gloss finish
- Exclusive finger grip design enhances comfort & control while playing
- Captive jingle pins ensure jingles will never fall out during play
- Professional-grade head, contributes to superior & consistent sound quality
- Includes a convenient, protective bag safeguarding your tambourine during transport
- Two pro-grade jingle alloys choices, each with a distinct sonic profile:
 - German Silver Jingles that produce a bright and articulate sonority
 - Brass Jingles that generate a full midrange sound

GROVER PROTÉGÉ WOODBLOCKS

P-WB-SM 7" WOODBLOCK

P-WB-MD 8" WOODBLOCK

P-WB-LG 9" WOODBLOCK

- Meticulously hand-crafted from the finest exotic hardwoods
- Engineered to deliver a well-defined, focused sonority
- Meets the discerning standards of musicians worldwide
- Available in three popular sizes: 7", 8", and 9"
- Offers versatility & superior performance in a variety of musical settings
- Designed to meet the demands of all performance situations
- Created to meet the needs of music educators, students, or seasoned professionals
- The perfect balance between exceptional sound and outstanding value

STUDIO PRO HEADLESS TAMBOURINE

T2/BC-H HEADLESS TAMBOURINE, BERYLLIUM COPPER JINGLES

- Designed with the recording percussionist in mind
- Features Individually hand-hammered Beryllium Copper jingles
- Dual-width staggered jingle slots for optimal sound projection
- Soft rubber comfort edging for enhanced playability
- Headless, 10" diameter, durable hardwood shell
- Produces full-bodied, rich sonority with the percussive articulation needed to cut through a live large performance session
- It's the preferred choice in Nashville and LA recording studios
- Includes padded tambourine case for added protection

X-SERIES TAMBOURINE

T2-PHBR-X HEADED TAMBOURINE, PHOSPHOR BRONZE JINGLES

- Designed to maintain stability in all playing conditions
- Synthetic, Remo Renaissance head for optimal performance in changing climates
- Phosphor Bronze jingles - favored among those seeking a deep, darker sound color
- Complements romantic European orchestral repertoire, concert bands or small ensembles
- Features Dual-width staggered jingle slots for optimal sound projection
- 10" diameter, durable hardwood shell
- Includes tambourine bag for storage and added protection
