

45th Anniversary Tambourine & Bag

Grover Pro Percussion proudly marks its 45th anniversary in 2025, celebrating decades of creating some of the finest percussion instruments in the world. Since its founding in 1980, the company's instruments have become staples for top percussionists, students, and ensembles in virtually every corner of the globe.

To commemorate its 45th anniversary, Grover Pro is releasing a limited edition headless tambourine inspired by its renowned Studio Pro model. The tambourine features a striking sapphire shell and a unique mix of silver, bronze, and copper jingles, accompanied by a matching sapphire 45th-anniversary bag. As a special thank-you, Grover Pro will include this exclusive bag with every professional model tambourine sold throughout 2025.

BlocKnock™

Grover Pro, is proud to announce the relaunch of the BlocKnock™, an innovative accessory designed to expand the versatility and playability of wood blocks. Originally introduced in 2014, the BlocKnock™ is now back and ready to provide percussionists with an indispensable tool for modern performance demands.

The BlocKnock™ allows musicians to produce the traditional woody "crack" of a wood block using either a hand or mallet, offering unparalleled flexibility for players across a wide range of musical contexts. This tool is a game-changer for percussionists required to switch instruments rapidly, as well as for show players in pit orchestras and hand drummers looking for enhanced sound options. It quickly and easily attaches securely to any Grover Pro wood block and can be removed effortlessly when not in use. Crafted from durable coated spring steel and hardwood, it features a specialized striking face to ensure consistent, high-quality sound production across all wood block sizes.

Protégé™ Triangles & Beater

Grover Pro, is excited to announce the latest additions to its Protégé series, originally introduced in 2024. Joining the line's existing tambourines and wood blocks are the Protégé Triangles and Beater, offering percussionists outstanding sound quality and versatility at an accessible price point.

Available in 6" & 8" sizes, & made from premium steel, these triangles resist corrosion while preserving the natural overtone spectrum for a shimmering, dynamic tone. The 6" model delivers a versatile sound with a clear, bright tone suited for general use. The 8" triangle offers greater projection and body, ideal for applications requiring a bolder, fuller sound. Both sizes produce a consistent overtone spectrum across their entire dynamic range.

Completing the expansion is the Grover Protégé Beater. Crafted from a stainless-steel alloy, the beater minimizes contact noise while producing a rich, articulate sound. Its extra-long 8.9" length and 7/32" diameter make it perfect for executing intricate rhythms and rolls with ease, while the Easy Grip handle ensures comfort during extended performances.
